This edition reproduces verbatim Theorod Schwartzkoppf's *Sonata à 3 Viola da Gamba et Fagotto con Cembalo* manuscript in the *Universitätsbibliothek Rostock*, shelf mark *Musica Sec. XVII 58¹⁵*.

The manuscript is in separate parts and, in addition to the *Cembalo* part quoted in the title, also has a *Violon[e]* part: the intended instrument is probably a cello more than a contrabass viol and is the ‘real’ bass; the *Cembalo* part, instead, harmonises a kind of *basso seguente* which occasionally makes imitations less readable.

E D I T O R I A L R E M A R K S

- All editorial additions are placed above the staff or marked by dotted lines or parentheses.
- Original clefs, key signatures, time signatures, note values, ties, slurs, beamings and bar lines have been retained.
- All marked accidentals have been retained, even when superfluous according to modern conventions; however, they have been silently ‘modernised’ when today conventions dictate a different sign (i.e.: a sharp used to raise a flattened note has been converted to a natural sign).
- Accidentals above the staff or in small type between parentheses are editorial suggestions.
- Rehearsal marks in the *Aria* are not original and have been provided editorially as a convenience.
- In the source, the continuo figures were above the staff; in this edition they have been moved below the staff, which is more common in modern editions.

C R I T I C A L N O T E S :

- I. In the viola da gamba part only, the source has here a repeat end mark which looks like a copyist error.

A3 Printing Instructions

The A3 versions of the pdf files are intended to be printed in a booklet format (several double-size sections folded in the middle) on A3 paper; when necessary, page turnings are minimized by the use of fold-outs.

To print in booklet format on double-sized paper using Adobe Acrobat Reader™ (other PDF readers usually have equivalent commands):

1. Load double-sized (typically A3) or single-sized (typically A4) in your printer according to each range size.
2. In Acrobat Reader™ print dialogue box, under “Page Sizing & Handling”, select “Size” and under “Size Options”, select “Actual Size”.
3. Under “Page Setup...”, select “A3 297 x 420 mm” or “A4 210 x 297 mm” according to the size of each range.
4. Print each of the page ranges listed below (recto and verso). This generates some A3-sized sections to fold in the middle (and bind together, if you like) and possibly some A4 loose pages, each with the indication of the double page to which it is intended to be glued.

Hint: if your printer does not have double-side printing capability (recto and verso in a single run), print each range twice: once selecting “Front side only” (or “Odd sheets”) and printing on one side, then selecting “Back side only” (or “Even sheets”), reloading the printed pages on the other side and printing the same range of pages again.

Page Ranges

(all numbers refer to positions in the file, not to numbers printed on the pages)

Section	Paper Size	Page Range
